Section 3 Evaluation of application files

The contract is awarded to the bidders who have submitted the highest rated bid among those that comply. The evaluation will be carried out by the Tender Analysis Committee on the 17th October 2022 and will take place as follows:

- 1) Examination of the admissibility and conformity of the offers (Tender opening).
- 2) Evaluation of the technical quality of the bid 70 points

- 3) Evaluation of the financial offers (by comparison of the prices) 30 points

Administrative verification

An administrative check will be carried out when the application files are opened. That is to say, it will be checked whether the tenderer is eligible according to the criteria set out in this call for tenders. If any statement by the Bidder is found to be false or misleading, whether the error is intentional or not, the Bid will be declared non-compliant.

Only Companies with 35 points and above from the Qualitative/Technical assessment will qualify to the financial evaluation stage.

An inspection of the proposed vehicles as well as an oral presentation for the drivers proposed by the tenderer will take place before the award of the contract.

3.4 Financial evaluation: (30 points)

This analysis is carried out on the basis of the costs as specified in Annex B.

Propose a price for each category of vehicles;

The analysis commission will establish an average price per article for each tenderer by calculating the arithmetic mean of the prices proposed by the said tenderer according to the different sections. It remains that for the successful bidder, the purchase orders will remain based on the unit prices that he has proposed by tranche.

The score of 30 points is awarded to the tenderer whose offer is the lowest. GISCOR reserves the right to reject any offer whose financial part is deemed too low, unviable or incompatible with the performance of the proposed work.

Formula for the financial note:
$$\frac{\text{lowest bid amount}}{\text{Amount Bid Bidder}} \times 30$$

For reasons of possible budgetary availability and programming, GISCOR reserves the right to propose the signing of the contract for all or part of the services appearing in the request for quotation. If the provisional successful bidder declines the proposal to sign the contract for this reason, the award passes to the next competitor, in the order of classification obtained at the end of the counting.

Make sure to provide costs that are according to the market and that will allow GISCOR to analyze your case adequately;

The unit prices mentioned in the offers will be valid for a period of ninety (90) calendar days from the deadline for submission of bids. In exceptional circumstances, GISCOR may contact bidders for an extension of this validity period for a specified number of days, which may not exceed thirty (30). Requests and responses will be made in writing.

A visit will be made to the pre-selected supplier(s) to check the company proposed for the service, the ambiance and to see some of the staffs on ground.

3.5 Final evaluation

The selection committee recommends the awarding of the contract to the supplier having obtained the best score following the final technical and financial analyses.

Final score: *technical analysis note + financial analysis notes*

In the event of a tie in the final score, the contract is awarded to the supplier who submitted the lowest price.

GISCOR reserves the right to sign a framework contract with several suppliers for the same types of services.

3.6 Checklist:

Before submitting your application, check that you have included all the required documents.

- Stamped Submission Form ANNEX A
- Legalized copy of the tax certificate up to 2021.
- Company registration, company profile, TIN and CAC registration
- Contract or purchase orders for similar services performed with other NGOs (including GISCOR)

NOTE: It is in the bidder's interest to provide contact details and preferably an email address.

3.7 Ethics clauses:

Any attempt by a candidate or bidder to obtain confidential information, to enter into illegal agreements with competitors or to influence the committee or the contracting authority during the process of examination, clarification, evaluation and comparison of offers will result in the rejection of their application or their offer and may lead to administrative sanctions.

When submitting a bid, bidders must declare that they are not affected by a conflict of interest and have no equivalent relationship in this regard with other bidders or parties involved in the project. If such a situation arises during the performance of the Contract, the Contractor must immediately notify the Contracting Authority.

Entrepreneurs must at all times act impartially and as trusted advisers in accordance with the code of conduct of their profession. They will refrain from making public statements about the project or services without the prior approval of the contracting authority. They cannot commit the contracting authority in any way without its prior written consent.

The contractors cannot accept any payment related to the contracts other than that provided for therein. Contractors and their staff must not engage in any activity or benefit from advantages that are incompatible with their obligations towards the contracting authority.

The contractors and their staff are bound by professional secrecy throughout the duration of the contracts and after their execution. All reports and documents drawn up or received by the contractors will be confidential.

The contract governs the use by the Contracting Parties of all reports and documents drawn up, received or presented by them during the performance of the contract.

The contractor must refrain from any relationship likely to compromise his independence or that of his staff. If the Contractor ceases to be independent, the Contracting Authority may, regardless of injury, terminate the Contract without further notice and without the Contractor having any claim for compensation.

The contracting authority reserves the right to suspend or cancel the financing of the project if corrupt practices of any kind are discovered at any stage of the award process and if the contractor does not take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offering of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act related to the award of a contract or the implementation of a contract already concluded with the contractor.

All bids will be rejected or contracts terminated if it appears that the award or performance of a contract has resulted in unusual business expenses. These unusual business expenses are commissions not mentioned in the main contract or not deriving from a correctly concluded contract referring to the main contract, commissions not paid in return for a real and legitimate service, commissions paid to a tax haven, commissions paid to a beneficiary who is not clearly identified or commissions paid to a company that looks like a front company.

The contractor undertakes to provide the contracting authority on request with all the supporting documents relating to the conditions of performance of the contract. The contracting authority may carry out any documentary or on-site checks it deems necessary to find evidence in the event of suspicion of unusual business expenses.

The contracting authority reserves the right to suspend or cancel the procedure, if the procurement procedure proves to have been the subject of substantial errors, irregularities or fraud. Where such substantial errors, irregularities or fraud are discovered after the award of the contract, the contracting authority may refrain from concluding the contract.

3.8 Cancellation of the tender procedure

If a tender procedure is cancelled, tenderers will be informed by the contracting authority.

A cancellation may occur, for example, if:

- The tender procedure has not been completed, i.e. when no suitable, qualitatively or financially acceptable offer has been received or there has been no valid response from the all; The economic or technical parameters of the project have fundamentally changed;
- Exceptional circumstances or a case of force majeure make the normal implementation of the project impossible; All technically acceptable offers exceed the financial resources available.
- There have been substantial errors, irregularities or fraud in the procedure, in particular where these have prevented fair competition; the award is not in accordance with sound financial management, i.e. it does not comply with the principles of economy, efficiency and effectiveness (for example, the price proposed by the tenderer to which the contract is to be awarded is objectively disproportionate to the contract price.

3.9 Appeals

Bidders who believe they have been harmed by an error or irregularity during the award process may request more information from GISCOR and appeal.
